# Site clearing commences at Manna Lithium Project as Global Lithium strengthens project team

Australia's next lithium producer, Global Lithium Resources Limited ("**ASX: GL1**", "**Global Lithium**" or "**the Company**") is pleased to announce that clearing and grubbing works has commenced at its 100%-owned Manna Lithium Project in Western Australia.

The early works cover the grade control area, with approximately 54 hectares included in the contracted scope. Activities include clearing vegetation within the approved work area and managing cleared material, subject to the Project's environmental and heritage controls.

The commencement of physical site works follows the Company's previously announced receipt of its Native Vegetation Clearing Permit[1]. It marks a further step in preparing Manna for development, while the Company continues to progress the Project during the binding scheme of arrangement with Titan Australia Mining Pty Ltd[2].

[1] GL1 ASX Announcement, 20 August 2026, *"Manna Clearing Permit and Groundwater Licence secured"*
[2] GL1 ASX Announcement, 22 September 2026, *"Global Lithium enters into binding SID with Titan"*

Global Lithium Managing Director Dr Dianmin Chen said:

"Starting site clearing is another important and very visible milestone for Manna. We are continuing to advance the Project safely and responsibly during the SID process with Titan, supported by a growing team with the experience to deliver the next phase of work."

To support continued work at Manna and the Nova processing facility, GL1 is pleased to announce four senior management appointments:

- **Guy Simpson** has been promoted to GM – Manna Operations. Guy joined Global Lithium in May 2026 as General Manager – Technical Services. A mining engineer with more than 30 years' international experience, he will lead the Company's mining function as Manna progresses towards development and operations;
- **Glen Fraser** has been appointed Senior Project Manager. Glen brings more than a decade of project experience, most recently on the Havieron Gold Mine development at Greatland Gold;
- **James Tut** has been appointed Project Manager. James brings more than a decade of project experience across Roy Hill, Fortescue, BHP and Rio Tinto; and
- **Scott Dassira** has been appointed People & Culture Manager. Scott brings experience in workforce planning and organisational transitions across resources and other sectors, most recently at Pfizer's Perth site.

These appointments strengthen Global Lithium's operational, project delivery and workforce capabilities as work at Manna and Nova progresses.
